

## Part Three: Collecting Data from WIMP

---

Monday, May 17, 2021 7:53 AM

Now that you have developed a testable question, it is time to collect the data you need from WIMP.

### Part 1: Find the data you need

- Use the following link to get access to all of our data:

[https://epi2me.nanoporetech.com/workflow\\_instance/272415](https://epi2me.nanoporetech.com/workflow_instance/272415)

The barcodes are as follows:

Adults from 32<sup>nd</sup> and Pittsburg (**Barcodes 2, 7 and 8**)

Larvae from 32<sup>nd</sup> and Pittsburg (**Barcodes 1 and 3**)

Adults from Drumheller- captive raised- (**Barcodes 4, 5, and 6**)

Larvae from Drumheller (**Barcode 9**)

- Watch the loom video below to see how to access information on WIMP easily.
